Compressed Air Attachment

Model No.
SR 307

Ordering No.
H03-1412

Product Description

The SR 307 compressed air attachment is designed for connection to Sundström half masks and full face masks. This combination forms a breathing apparatus designed for continuous air flow, for connection to a compressed air supply. The SR 307 is an accessory that enables a given facepiece to be used as either a filtering device or a protective device supplied with compressed air. The compressed air attachment is especially intended for applications involving heavy and sustained work in environments in which the pollutants have poor warning properties or are particularly toxic.

The SR 307 is made of a material which is not liable to give rise to frictional sparking, which enables the attachment to be used in an explosive or flammable environment. The flow meter and warning whistle for temporary and continuous monitoring of the air flow rate are included. Control valve mounted on the user's belt is included.

Technical specification

	SR 307	EN 14594:2005
Working pressure	4–7 bar	≤ 10 bar
Airflow rate	150–320 l/min	-
Service temperature	-10 – +55 °C, < 90 % RH	-
Storage temperature	-20 – +40 °C, < 90 % RH	-
Weight without control valve	≈ 80 g	-
Low flow warning level	< 150 l/min	-
Protection factor ¹		
Half mask	20	-
Full-face mask	100	-
Approvals	EN 14594:2005	

1) Specified in BS 4275 and applies generally to all approved continuous flow airline full-face mask or half masks regardless of the test results.

- A. Connection adapter
- B. Overflow valve
- C. Silencer
- D. Breathing hose
- E. Retaining clip
- F. Locking ring
- G. Belt
- H. Control valve
- I. Warning whistle
- J. Compressed air supply tube
- K. Flow meter
